Data Review Meeting Agenda

Meeting goals:

• Identify key issues that emerge from the data
• Set general goals for changes to foster youth experiences and outcomes
• Determine priority areas of work
• Establish key issues to raise with network partners

10:00-10:15 Agenda Review, Goals & Introductions

Outcomes: Create a common understanding of the structure and goals of the day and who is in the room

• your name
• the “hats” you wear
• why you work with foster youth

10:15-10:45 Key Issues in the Data

Outcomes: Identify key issues that emerge from the data and generate questions that can be addressed in the internal audit, environmental scan, and student focus groups

• What were the key take-aways from the data?
• What surprised you the most?
• Why did it surprise you?
• What additional questions do these data raise for you?

10:45-11:45 Goals for Change

Outcomes: Identify general goals that will guide the planning process (what you want to be different)

Strengths and weaknesses:
• Looking at the data, where are you being most successful?
• Looking at the data, where might you need to do more work?

Goals for change:
• Based on these strengths and weaknesses, what would you want to change about your students’ experiences?
• What areas of service would you need to focus on to bring about that change?
• How do these relate to the milestone and momentum metrics?

11:45-12:00 Break to Grab Food
12:00-1:00 Priority Areas of Work

Outcomes: Identify priority programmatic areas for grant-funded efforts (how you want to make the change)

- Given the changes you want to students’ experiences and outcomes, what changes would you make to existing services?
- What new services would you build?
- How could you leverage the strengths identified earlier to make these changes?
- How could you address the weaknesses that you identified earlier?
- How do these relate to the milestone and momentum metrics?

1:00-1:45 Issues to Bring Forward to Partners

Outcomes: Identify how local goals relate to the work of network partners

- How do your goals and activities relate to the work of other organizations in the network?
- What do you need from others and what could you offer them to reach your goals?
- What are the most important concepts to get across to partners and what do we need to know from them?

1:45-2:00 Next Steps

Outcomes: Identify action items and map them to the grant planning phases

- How do these activities relate to the next phases of work?
- Who will take responsibility for action items identified related to the data, goals, activities, and the network?
