Outreach and Education Resources for Understanding Healthcare Reform

Starting January 1, 2014, healthcare insurance will be more affordable for the 2 million uninsured in Los Angeles County under the Affordable Care Act. Covered California is the new online marketplace that will make it easier to get quality health insurance at an affordable price. There are also new health benefits and consumer protections available today.

Through funding from Covered California, Community Health Councils (CHC) and its partners are available to answer your questions. We also offer group presentations, workshops and will attend community events throughout Los Angeles County to provide an overview of the coverage options and how individuals and families can benefit from what Covered California has to offer.

Please contact any of our partners or CHC Outreach Coordinator Griselda Vargas at 323.295-9372 x245 or Griselda@chc-inc.org if you are interested in:

1. Learning about presentations happening in your community,
2. Scheduling a presentation at your organization, school, church or other location
3. Getting your questions answered about health reform and/or Covered California.
